

PORTLAND METRO OPEN CRICKET CLUB

Cricket cage (Nets) usage policy

The cricket batting cage is allotted to PMOCC by THPRD, and the reservation schedule can be found [here](#). Only teams with players having valid THPRD membership cards can use the batting cage on allotted days.

The THPRD nets cannot be reserved, they are meant to be shared due to the number of teams we have. It's on a first-come, first-use basis, and all teams are expected to practice together if they happen to arrive there at the same time. This avoids unnecessary blocking of time, especially for extended periods.

All captains must announce at least a day before the practice in the Captains/WhatsApp group that they plan to use the nets. If they don't, then the ones that did get priority. However, this announcement is not meant to be a reservation of the batting cage.

Tennis ball practice takes precedence on PMOCC allotted days. We can accommodate PMOCC players who want to practice with a leather ball, but they would have to wait or stop immediately if they see teams who want to practice with tennis balls.

Please note that since there are more than 20 teams and a limited number of days per week to use the batting cage, it is likely that multiple teams will share the nets.

The team captains are responsible for ensuring that players meet all the below requirements and follow the rules.

1. Players using the nets must be a PMOCC member or part of the current team's roster on CricClubs (PMOCC). By the end of the first month(May) after the season begins, you must have played at least one game in the PMOCC tournament to use the cage.
2. The THPRD & PMOCC reservation schedule must be strictly followed.
3. The timings are from 5:00 PM to dark Monday to Friday.
4. The players using the nets must have a valid THPRD card and either be in the THPRD district or have purchased a seasonal card for cricket from THPRD.
5. Players get to use the cage on a first-come, first-served (FCFS) basis, whereby they bat in the order that they arrived, irrespective of the team, without any biases or preferences. You may have situations where you are sharing the cage with players from different teams, and you cannot ask a player to wait until your team is done.
6. Teams not following the above rules will not be allowed to use the cage for the rest of the season.

Hillsboro Batting Cage

What's new this year is that we have an official confirmation from the City of Hillsboro regarding the batting cage there. It is considered an open park, and all amenities at their open parks are first come first serve. So Hillsboro residents can also avail that batting cage if they choose to. It's located at [Griffin Oaks Park, 1800 NE Griffin Oaks St, Hillsboro, OR 97124](#).
